

My Fuel Sight

POWERED BY BLUE PUMP SOFTWARE

&

PPS

PETROLEUM PROCESSING SOLUTIONS

Who We Are

Founded in 2016 by industry experts in the following fields:

Payment Processing
C-Store Operation
Fuel Maintenance

Small organization with substantial capital which allows for:

Agile development
Customer intimacy
Low operating overhead

What We Do

Provide EMV enabled hardware for the unbranded petroleum convenient store industry for a 1/2 of the cost of current equipment

Wireless handheld technology which allows payment acceptance and pump control in a full service environment at your car door or your boat dock.

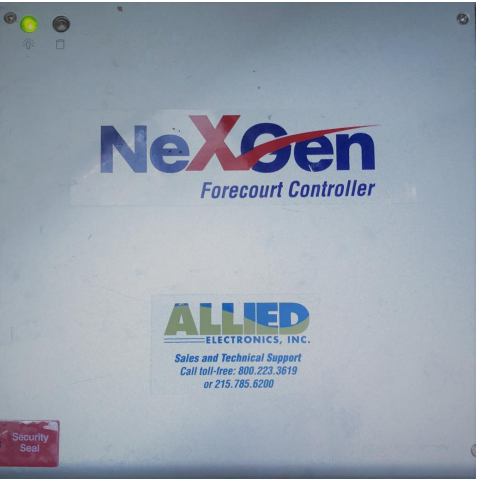

Leverage proven hardware to meet modern customer requirements:

Cloud based reporting and inventory management
Automatic updates with minimal down time
Plug and play replacement hardware

FD Clover Station

NeXGen Controller

Aurus Gateway
